EDUCATION

University of Mianwali

(Oct 2022 – May 2026)

Bachelor's in Software Engineering (3.32)

Core: Object-Oriented Programming (OOP), Data Structures, Software Engineering, Database Systems, Operating Systems, Computer Networks, Artificial Intelligence.

PROFESSIONAL EXPERIENCE

MIMAR LOGICS - *ANDROID DEVELOPER*

(Nov 2025 – Present)

Kotlin — Jetpack Compose — Room DB — REST APIs

- Developing a comprehensive RMS Android application for business operations and daily tracking.
- Designing responsive interfaces with Jetpack Compose for optimal cross-device performance.
- Implemented robust offline-first architecture via Room DB and secure REST API synchronization.

PROJECTS

HUNRMAND - ON-DEMAND MARKETPLACE (FINAL YEAR PROJECT)

Android — Kotlin — Firebase — Agile Methodologies

- Developed an on-demand Android marketplace connecting local skilled workers with clients.
- Engineered secure user authentication and dynamic location-based tracking utilizing Firebase.

AKHIR KAB (OFFLINE-FIRST COUNTDOWN APPLICATION)

(Ongoing)

Kotlin — Jetpack Compose — Room DB — Clean Architecture — MVI

- Engineered an offline-first event countdown utilizing an MVI-like architectural pattern.
- Implemented Room DB ensuring flawless local data persistence for calculated deadlines.

FLOWCUS TRACKER - DIGITAL WELLBEING APP

Flutter — Dart — UI/UX Design

- Built a cross-platform Pomodoro productivity app featuring a customizable timer.
- Designed an interactive UI to gamify work sessions and accurately track daily user progress.

DRAWING THOUGHTS - CROSS-PLATFORM APPLICATION

Kotlin Multiplatform (KMP) — Desktop Environments

- Developed a cross-platform drawing application spanning Android and Desktop environments.

DEVELOPER PORTFOLIO & WEB APPLICATIONS

React JS — HTML/CSS — JavaScript

- Built a responsive portfolio website with a component-based architecture for clean, maintainable code.

SKILLS & TOOLS

- **Languages & Web:** Kotlin, Java, Python, C/C++, JavaScript, Dart, React JS, HTML, CSS
- **Android & Cross-Platform:** Jetpack Compose, Android SDK, Kotlin Multiplatform (KMP), Flutter
- **Architecture & Databases:** Clean Architecture, MVVM/MVI, Room DB, Firebase, SQL, Hilt
- **Tools:** OpenCV (cv2), Git/GitHub, Linux, CI/CD pipelines, Android Studio, VS Code
