PROFESSIONAL SUMMARY

Android Developer focused on Kotlin, Jetpack Compose, Firebase, Room DB, REST APIs, Hilt/DI, MVVM/MVI, Repository Pattern, and Clean Architecture. Experienced in offline-first apps, marketplace flows, authentication, local persistence, responsive UI, and production-style Android features.

PROJECTS

Hunarmand – On-Demand Skilled Worker Marketplace

Final Year Project

Kotlin, Jetpack Compose, Firebase/Supabase, Hilt/DI, MVVM, Clean Architecture

- Built an Android marketplace connecting customers with local skilled workers for service discovery and job booking.
- Implemented customer/worker flows, authentication, job posting, worker listing, booking lifecycle, notifications, and location-based matching.
- Applied MVVM, Repository Pattern, DI, and Clean Architecture practices for maintainable feature development.
- Secured **Runner-Up** at **Namal Ideathon & Innovation Expo 2026**. Reference: [Namal University Post](#)

Akhir Kab – Offline-First Countdown App

Ongoing

Kotlin, Jetpack Compose, Room DB, MVI, Repository Pattern, Clean Architecture

- Developed an offline-first countdown app with Room DB persistence, event storage, and deadline calculation logic.
- Built a state-driven Compose UI using an MVI-style approach with clean event creation and countdown tracking flows.

Drawing Thoughts – Cross-Platform Whiteboard App

Kotlin Multiplatform, Jetpack Compose, Android, Desktop, CI/CD Basics

- Built a cross-platform infinite-canvas drawing app with canvas interactions, text handling, and drawing tools.
- Published on Google Play for testing and feedback. Link: [Google Play](#)

Flowcus Tracker – Digital Wellbeing App

Flutter, Dart, UI/UX Design

- Built a Pomodoro productivity app with customizable focus sessions, progress tracking, and interactive UI.

ADDITIONAL EXPERIENCE

Mimar Logics – Android Developer

Nov 2025 – Present

Kotlin, Jetpack Compose, Room DB, REST APIs

- Contributing to an Android RMS app with responsive Compose screens, Room DB persistence, REST API synchronization, and clean data-layer practices.
